

Business Portfolio

1 stop solution for your company management

Welcome to Sharvaya Infotech, your trusted partner for comprehensive IT solutions. Founded in 2020, Sharvaya Infotech has been committed to delivering cutting-edge technology services tailored to meet the unique needs of businesses across various industries.

What We Offer

Sharvaya Infotech offers a wide range of services designed to address diverse business requirements:

Customized CRM/ERP Solutions: We understand the importance of efficient customer relationship management (CRM) and enterprise resource planning (ERP) systems in streamlining business processes. Our team crafts bespoke solutions that align perfectly with your organization's goals and objectives.

Website and Application Development: In the digital age, a strong online presence is vital for business success. Whether it's a responsive website or a feature-rich mobile application, we specialize in creating engaging digital experiences that captivate audiences and drive conversions.

Digital Marketing: Stand out in the crowded digital landscape with our strategic digital marketing services. From search engine optimization (SEO) to social media marketing and pay-per-click (PPC) advertising, we help you to enhance your online visibility and to reach your target audience effectively.

SEO Solutions: Improve your website's visibility and ranking on search engine results pages with our tailored SEO solutions. Our experts imply proven strategies and best practices to optimize your website for maximum organic traffic and better search engine performance.

Dealer Management:

Our software streamlines inventory tracking, sales processes, and customer management for automobile dealerships, ensuring seamless operations and improved customer satisfaction.

Project Management:

Our platform facilitates efficient project planning, resource allocation, and progress tracking, enabling project managers to meet deadlines and deliver projects within budget.

Franchise and Vendor Management:

Our system simplifies franchise operations by centralizing vendor management, inventory tracking, and performance monitoring, fostering stronger relationships between franchisors and vendors.

Vehicle & Fleet Management:

Our solution provides comprehensive fleet tracking, maintenance scheduling, and fuel management, optimizing vehicle performance and reducing operational costs for transportation companies.

Solar Management:

Our software optimizes solar energy production by monitoring panel performance, tracking energy output, and managing maintenance schedules, ensuring maximum efficiency and uptime.

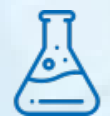

Ceramic Management:

Our platform assists ceramic manufacturers in managing production processes, quality control, and inventory tracking, ensuring smooth operations and timely delivery of products.

Textile Industries:

Our system streamlines textile manufacturing processes, from order management to production scheduling, quality assurance, and inventory management, enhancing efficiency and reducing lead times.

Chemical and Pharmaceutical:

Our solution ensures compliance with industry regulations, tracks inventory, manages production processes, and facilitates quality control for chemical and pharmaceutical companies.

Appliance Automation Services:

Our software enables automation service providers to schedule appointments, track service requests, manage inventory, and streamline billing processes for appliance repair and maintenance services.

Engineering Consultant:

Our platform supports engineering consultants in project management, resource allocation, document sharing, and collaboration with clients and team members, improving project outcomes and client satisfaction.

Automobile Parts Manufacturer:

Our system optimizes production scheduling, inventory management, and quality control for automobile parts manufacturers, ensuring timely delivery of high-quality components to clients.

Payroll Services:

Our solution automates payroll processing, tax calculations, and employee record-keeping for payroll service providers, ensuring accurate and timely payments for clients' employees.

Visitor Management:

Our software simplifies visitor registration, badge printing, and access control for organizations, enhancing security and efficiency in managing visitor traffic.

Barcode Integration:

Our platform integrates barcode technology into inventory management systems, streamlining stock tracking, order fulfillment, and warehouse operations for retail and distribution businesses.

Inventory Management:

Our system optimizes inventory control, stock replenishment, and order fulfillment processes, ensuring accurate stock levels and efficient operations for businesses across various industries.

Warehouse Management:

Our solution enhances warehouse efficiency by optimizing layout design, inventory organization, order picking processes, and labor management, improving overall operational productivity.

Printing & Packaging management:

Our software facilitates job scheduling, resource allocation, quality control, and order tracking for printing and packaging companies, ensuring timely delivery of high-quality products to clients.

Expo Coordination:

Our platform simplifies expo planning, exhibitor management, attendee registration, and event logistics coordination, ensuring successful and memorable expos for organizers and participants.

Pre-owned Car dealers:

Our system facilitates inventory management, sales tracking, and customer relationship management for pre-owned car dealerships, enhancing the buying experience for customers and maximizing sales opportunities.

Food & Franchise Model:

Our solution supports food franchise operations by managing menu engineering, supply chain logistics, franchisee communication, and performance monitoring, ensuring consistency and quality across locations.

Compliance Prevention:

Our software helps organizations prevent compliance violations by tracking regulations, managing audits, documenting policies and procedures, and facilitating employee training and certification.
